

We have included a few reviews sent to us from our satisfied guests. Feel free to ask for more details and references.

Our family of 18 took our vacation and stayed at the castle and certainly loved our accommodations. We had four families with the children from ages 3-14. The children's bedroom was so accommodating for their ages and as a grandparent each of our children had their own bedroom. We spent most of every day at Disney but when we came back to our home away from home we were all very much comfortable. The owner Leslie was very helpful when we needed to call. We did have to have the pool heated and she was right on the spot because it became cooler out and we needed to have it heated. Thank you for allowing us to have such a beautiful place. This also helped our vacation to be successful. We ate our meals together in the evening played games and was a great family vacation. We will do it again.

I and my family enjoy vacationing in Florida during the summer. I did a website search one year for a vacation rental that would be large enough for my family. Since there was so many of us going on this vacation I wanted to be sure we had something large enough that we all would have space, privacy and of course with 14 people space is a big factor. I decided to go with Florida Villa Rentals. I must say from the beginning to the end of my interactions with this agency, it was a pleasure. Lesley Stone is a very pleasant and knowledgeable agent. The home we selected met our needs and much more. We enjoyed our stay so much that we have rented the same rental every time we vacation in Florida and our experience with Mrs. Stone has been a pleasure every time. I would recommend this agency to anyone looking for a vacation rental in Florida. You will not be disappointed.

Re: Lesley Stone Rental Property

My family had the wonderful opportunity to rent from Leslie in March, 2013. When we arrived we were very pleased to find the house not only lived up to the expectations we had from our on line pictures, it far exceeded them. The house was very open and roomy. It was very clean and had all the extras we could think of. We were able to have 4 couples and 5 children stay with plenty of room for more. The children's room was a real hit with my 5 granddaughters as no one had to sleep alone in a strange place. Their mothers thought this might be a problem but at the end of the day, the girls were eager to have baths and hit the bedroom and watch a Disney movie as they fell asleep. We loved the big breakfast area and the room we had to actually be by oneself if the need arose. Would we come back? You bet. Leslie was easy to work with and the house with its own pool made our vacation one to remember. If you choose to rent this house, you are in for a little bit of heaven!
